with Satin Brass Cuff

Acrylic Cylinder
with Satin Brass Cuff

Acrylic Sphere
with Satin Brass Cuff

Distinction 35 Brackets

Distinction 35 poles can be either face/wall fixed or top/ceiling fixed. The adjustable face/wall brackets allow ease of fitting - the 'T' brackets are mounted to the wall first and then the adjustable arms (which come already fitted to the pole), can be slid into the backplates. If necessary, the bottom of the face fixed back plate can be modified so that the bracket is reduced to 3cm in height.

Face/Wall Fix

Top/Ceiling Fix
